YOU  
THE  
ONE?

ARE  
YOU  
THE  
ONE  
GRAPHIC  
DESIGNER  
?

## People Psyentists®

are expected to work synergistically with a team of consultants to understand clients' needs, manage their expectations, develop and provide insight, gain their commitment, and implement the solutions effectively to our professional standards.

## BE A PSYENTIST®

### In This Role You Will Get To:

[Graphic Designer Expert]

- Showcase ability to interact, influence, advise and work with client executives across multiple industries
- Leverage on opportunity to work with some of the fastest growing companies by assisting clients strategically integrate appropriate design style and format
- Confer with clients to determine needs
- Work closely with clients to build business relationship that foster trust
- Collaborate with others to develop or refine designs.
- Participate in the development of concepts, prepare rough drafts of storyboard, design graphics, refine prototype, review layouts, suggest improvements and launch final solution
- Assist, as appropriate, in the timely resolution of any client service issues
- Contribute to team's marketing efforts throughout the year
- Obtain knowledge of principles and processes for providing customer and personal services. This includes customer needs assessment, meeting quality standards for services, and evaluation of customer satisfaction

You will work hand-in-hand with senior management personnel, gaining holistic business insight to help clients achieve optimal business performance.

## LEARNING OPPORTUNITIES

- Learn about other industries through extensive client interaction
- Grow into becoming trusted adviser than just an executor
- Adopt a broad approach to problem-solving skills
- Make quick and agile decision making that is solution focused, bold and shows how passionate the team is about what we do
- Seed a complete understanding of our solutions and the underlying scientific foundations to which the tools are derived to effectively communicate applicable solutions to clients
- Develop a working knowledge of market trends and competitor activities
- Contribute to decisions with management with fact-based solutions
- Render exceptional service to the client by responding with a sense of urgency, practicality, accountability, integrity, and respect
- Be organise and prioritise work to ensure timely, effective, efficient and economic delivery of solutions
- Maximise internal resource involvement for enhanced solution offering and to ensure efficient solution delivery
- Improve deliverables to meet market needs

We are currently seeking creative and expressive **Graphic Designer** who is not afraid to fill some big shoes. This is a Southeast Asia role, and you are expected to be mobile on a wide range of client engagements locally and overseas.

## WHAT IT TAKES TO JOIN US?

- Possess a Bachelor's Degree preferably in Graphic Design or Digital Animation
- At least 2 years of working experience in a performance driven environment. Candidates with experience in the relevant field of graphic design and animation for game-based solutions will have an added advantage
- Determined self-starter with strong focus in achieving goals and surmounting challenges
- Energetic, mobile, confident and enjoys interacting with people
- Resourceful and results driven, with intellectual curiosity - seeking new opportunities to learn and develop new skills
- Crave variety, thirst for knowledge and curiosity to learn/acquire new skills
- Flexibility in coping with rapid changing client/project requirements
- Committed and accountable to team's overall performance, working beyond own scope as required
- Require self-expression and the work can be done without following a clear set of rules.
- Consistently treat fellow team members with courtesy and consideration
- Not afraid to challenge conventional wisdom and status quo constructively
- Exceptional creativity and innovation
- Accuracy and attention to detail
- Presenting solutions and communicating on different levels in the client's organisation
- Demonstrates flexibility and willingness to take on tasks outside of assigned responsibility
- Good command of the English language is essential for this role, both oral and written
- Excellent computer skills - especially with design and photo-editing software. Good knowledge of design software, such as Quark Xpress, InDesign or Illustrator plus photo-editing software, such as Photoshop
- Design complex graphics and animation, using independent judgment, creativity, and computer equipment
- Make objects or characters appear lifelike by manipulating light, colour, texture, shadow, and transparency, or manipulating static images to give the illusion of motion

# WHAT IT TAKES TO JOIN US?

## To distinct yourself among the rest, it will be an advantage if you can demonstrate the following:

Create two-dimensional and three-dimensional images depicting objects in motion or illustrating a process, using computer animation or modeling programs

Apply story development, directing, cinematography, and editing to animation to create storyboards that show the flow of the animation and map out key scenes and characters

Participate in design and production of multimedia campaigns, handling budgeting and scheduling, and assisting with such responsibilities as production coordination, background design, and progress tracking

Script, plan, and create animated narrative sequences under tight deadlines, using computer software and hand drawing techniques

## To shine, you need to be competent in with some of the following technical skills:

Computer aided design CAD software — Autodesk 3ds Max Design; Autodesk Alias Surface; Autodesk AutoCAD Civil 3D

Development environment software — Adobe Systems Adobe ActionScript; C ; Unreal Technology Unreal Engine

Graphics or photo imaging software —Ability Photopaint; Corel Painter; Microsoft Visio ; Vector Designer
